INFORMATION

Whether it's the investigation of fraud, arson, or missing persons, clients know they can call upon Icon Services Corporation to provide facts and offer reliable solutions. Our efforts have solved crimes, reunited loved ones, and saved clients hundreds of thousands of dollars in reduced settlements and litigation costs. Corporate CEO's, attorneys, and insurance claim managers, all agree; ICON provides the answers with thoroughness and efficiency.*

Here are just a few of the investigative services ICON can provide:

- **Fraud Investigation** - For workers compensation, personal injury or corporate wrongdoing matters. ICON uses skilled private investigators to provide accurate, court-ready documentation and factual narrative reports.
- **Criminal Investigations** - Allow ICON to compile, review, or revisit, vital information that may have been neglected or overlooked by law enforcement. We put your interest first, sometimes determining the difference between freedom or jail.
- **Undercover Investigations** - For both long and short term assignments, our trained agents can blend into any social or work environment and gather requested information undetected.
- **Surveillance** - fixed or mobile, we can covertly videotape the subject of an investigation. Micro-technology allows installation of hidden cameras for residential, business or manufacturing plants

INNOVATIONS

Icon Services Corporation, was established around one guiding principal; If every assignment is important, then every assignment should be handled by licensed, trained and experienced investigators. Before beginning, we ask ourselves these important questions:

WHO in our firm is best suited to work your particular case?

Society is very diverse: we have to be equally so in order to avoid detection and retrieve the maximum amount of information for you.

WHAT are you ultimately looking for?

Defined goals are the key to getting results. Through constant communication with the client, we are able to effectively act on your request. As you are dealing directly with the experienced investigator, little margin is left for error or misinterpretation of your objectives.

WHEN and WHERE do we start?

Initially, we use a profiling index to develop a vivid picture of the subject and his or her activities. As more information is added, a blueprint is created of the most opportune time to work the case. From the inner city to the most rural areas of the nation, our investigations follow where the case leads.

HOW will we most efficiently provide you an answer?

Background searches, activity checks & ongoing surveillance, each have their function in the investigator's tools of trade. DMV searches, law enforcement contacts, and a network of reliable informants assist in this task. You depend on us to select the best tool, and then deliver results.

INVESTIGATION

The staff of ICON is pulled from the best and brightest that law enforcement, military and the private sector have to offer resulting in superior investigations. One area of expertise we pride ourselves on is the accuracy and efficiency of our background check resources. Our services are used by a multitude of human resources departments, small businesses, and several fortune 500 corporations both nationally & internationally.

- **Criminal Records Check**
- **Civil Records Check**
- **Asset Search**
- **Credit Checks**
- **Property Information**
- **Vehicle Ownership Searches**
- **Driving Record History**
- **Sex Offender Checks**
- **Employment Verification**
- **Education Verification**
- **Patriot Act Check**

In addition, our computer investigation division allows our agents to roam the back alleys of cyberspace as easily as we do the real world. An example of the services clients use:

- **Computer Crimes Investigations**
- **Proprietary Information Theft Investigations**
- **Privacy Safeguards/Database Protection**
- **Internet Dating Background Checks**
